SEL-351RS Kestrel

Single Phase Recloser Control

Standard with Ethernet, IEEE C37.118 Synchrophasor Measurement, DNP3 Outstation, Modbus® TCP/RTU, Telnet, FTP, Web Server, SNTP, AcSELERATOR QuickSet® SEL-5030 Software⁽¹⁾

Part Number:	0	3	5	1	R	S	0	2			В				1	X			
Firmware																			
Standard							0												
Recloser Interface																			
G&W Viper-SP or Elastimold MVR (10-Pin)								2											
Enclosure																			
Lift-To-Open, Painted Aluminum									1										
Swing Open, Painted Aluminum With 3- Point Latch*									2										
Swing Open, Painted Aluminum with 3-Point Latch and Convenience Outlet*									4										
Swing Open, Painted Aluminum with 3-Point Latch and GFCI Outlet*									С										
Conformal Coat																			
None										Χ									
Conformally Coated Circuit Boards*										1									
User Interface																			
Standard Plus Configurable Labels and USB ⁽²⁾											В								
User Inputs/Outputs																			
(1) Input (12 Vdc), (1) Standard Output, and (1) Alarm Output												1							
(4) Inputs (12 Vdc), (5) Standard Outputs, and (1) Alarm Output*												2							
Communications Interface																			
(1) 100BASE-FX MM LC, EIA-485*													D						
(2) 10/100BASE-T, EIA-485													Е						
(2) 100BASE-FX MM LC, EIA-485*													F						
Communications Protocols																			
Standard Protocols														1					
Standard Protocols Plus IEC 61850*														2					
Power Supply																			
120/230 Vac or 125/250 Vdc															1				
Battery Option																			
12 V, 16 Ahr																	1		
12 V, 40 Ahr*																	2		

Installed Accessories (3)

None									Χ	Χ	
Heater*									1	0	
3-Position Pin Contact Receptacle for Input Power (MS26482, Size 12)*									1	1
